ob software istentimo Windows 7 Ultimate 20-04-2016 A: The real problem is the extra space at the end of the name. You must always check for the problem and maybe you need to change the way you name your files. The simplest way to remove the trailing space is just deleting it: Move C:\Users\Documents\orkestirano.pfc to C:\Users\Documents\ordestirano.pfc. That way, only the leading space will be removed. If the file extension was just misnamed, the program can fix it, and that's the easiest way. H. S.
